EXPERIENCE

Freelance Multidisciplinary Designer & Frontend Developer

Compostela, Davao de Oro(Remote)

Self-Employed

Oct 2024 – Present

- Designed high-fidelity UI/UX for AgriyaPH, an agriculture-focused mobile app as a Capstone Project for a UP student client—delivering user flows, wireframes, and interactive prototypes in Figma
- Served 50+ clients across startups, small businesses, and agencies (local and international), delivering brand identity systems and responsive web designs
- Designed a full website for a pineapple company under contract with Blink OPC International (2026), handling both UX/UI and frontend support
- Created comprehensive brand assets including logos, packaging, social media graphics, and print layouts for diverse industries

Information Manager / Assistant

Compostela, Davao de Oro

PagAsa NGO

Feb 2023 – Jul 2024

- Streamlined client-communication workflows, ensuring accurate handling of information records for field operations
- Managed staff schedules, tasks, and meetings using advanced Excel tracking systems, improving team coordination and reporting efficiency

PROJECTS
